## FAQ

### How durable is the Elastic Pro Flooring and is there a warranty?

Knight Flooring is designed with the highest quality of materials and technology that is built to last. ZSFloor provides 5 Years limited warranty, however you can expect many years of enjoyment with your friends and family.

### What surface do I need as a base underneath the tiles?

ZSFlooring can be installed on a completely flat hard surface. Such as concrete or asphalt. We do not recommend to use on grass, dirt and rock.

### Can I take the court with me if we move?

Yes, absolutely – the best part about our courts is you are able to remove, dismantle and take with you to your next family home.

### Do you offer custom designs, colors and lines?

Yes, we provide custom sized courts in the color and design of your choice. We also offer a range of standard court sizes and designs. Should you require extra floor tiles or different shaped courts please just ask and we can organise this for you.

### What is the difference from playing on Our Premium flooring Vs Concrete?

Knight Flooring flooring has an extensive list of benefits compared to concrete, including:

Sound Reduction – ZSFloor flooring considerably reduces the noise on the court.

Convenience – Instead of travelling to your local park or stadium now you get the 'Pro' experience at home in your backyard

Drainage System –ZSFloor premium flooring allows water to penetrate through the tile, landing on the hard surface below, where water freely runs off keeping the courts puddle free and quick drying. Ready to play.

Anti-slip – Multi-sport flooring has been designed to provide traction through all weather conditions.

Aesthetics – Are you ready to showoff your court to your kids, friends, neighbours and family. Its a great way to get your kids off the couch.

Safety – Jumping and running is a high impact sport. Over time this can cause slow deterioration of the joints leading to pain and inflammation. Our courts have shock

absorption technology, therefore decreasing the jarring affect caused by jumping and running.

Value – Complimentary to any property. Dream courts offer fantastic Return on Investment - Enjoyment and capital improvement gains.

### **How do I maintain the court and how do I fix it if it gets damaged?**

Maintaining your flooring is a low maintenance product. All you require is a broom, blower or hose in order to complete the job.

Knight Flooring flooring is manufactured with the strongest PP and Elastic technology, leaving a very slim chance of any damage from occurring.

### **How long does delivery usually take?**

Once the order has been confirmed your court can be delivered and ready to play on in 6-8 weeks.
